## PROFESSIONAL SUMMARY

Results-driven engineering undergraduate passionate about front end web development with substantial hands-on experience with the MERN stack. Proficient in modern programming languages and frameworks, with a track record of successfully designing and implementing innovative solutions. A collaborative team player with excellent problem-solving skills and a drive to continuously learn and adapt in the dynamic field of software development.

## EDUCATION

### Civil Engineering

The University of Technology Jamaica, AUG 2013 - JUN 2017

GPA: 3.22 (Upper second-class honours)

High School: Cornwall College SEP 2006 - JUN 2011

## WORK EXPERIENCE

### REVLINT | Front End Intern

JAN 2023 - Current | Centreville, Virginia, US

- Designed and develop the landing page for the startup.
- Utilized React.js, TypeScript, Next.js and Material UI to implement designs.

### PROMANENG | Project Engineer

DEC 2018 - FEB 2019

- Coordinated civil and construction works as per company guidelines
- Oversaw site works and managed company resources

### Vinci Construction | Quality Control Officer

MAR 2018 – NOV 2018

- Drove the civil quality control aspects of the contracted project (Upgrade to the Kingston Wharf)
- Performed inspection and documentation of all structural work in progress.

## PROJECTS

### Music Webstore (ZihKing Music)

<https://github.com/SharlMagne/zihking-mern-app>

- Developed a full stack MERN application that handles the licensing of music (instrumentals).
- Implemented an API using express.js to handle all the requests from a react front end and store data using MongoDB.
- Architected a file upload feature that stores music files in an Amazon S3 bucket, then utilized Amazon CloudFront as the content delivery network
- Technologies: JavaScript, React.js, Redux, Express.js, MongoDB, AWS S3, AWS CloudFront.

### Desktop Application (NIS Inspector)

<https://github.com/SharlMagne/NIS-Inspector-Desktop-Application>

- Developed a desktop application as an efficient method for data entry
- The application contributed to a drastic reduction in data entry, done in minutes as opposed to written entry that took hours to complete.
- The application was implemented using Python and the PyQt module for the user interface.

## SKILLS

### Programming Languages

- Proficient in: JavaScript, TypeScript, Python, Cascading Style Sheets (CSS), HTML
- Working knowledge of: SQL

### Technologies

React.js, Redux, Next.js, Material UI, Bootstrap, Express.js, Node.js, Adobe Photoshop, Figma

## CERTIFICATIONS

- IBM Data Science Professional Certificate (2022)
- Harvard CS50X Computer Science Course (2021)
